

Instructions

Step 1:

Print out the game board and extra pieces. Have your child cut out the game pieces and laminate them to make the game more durable.

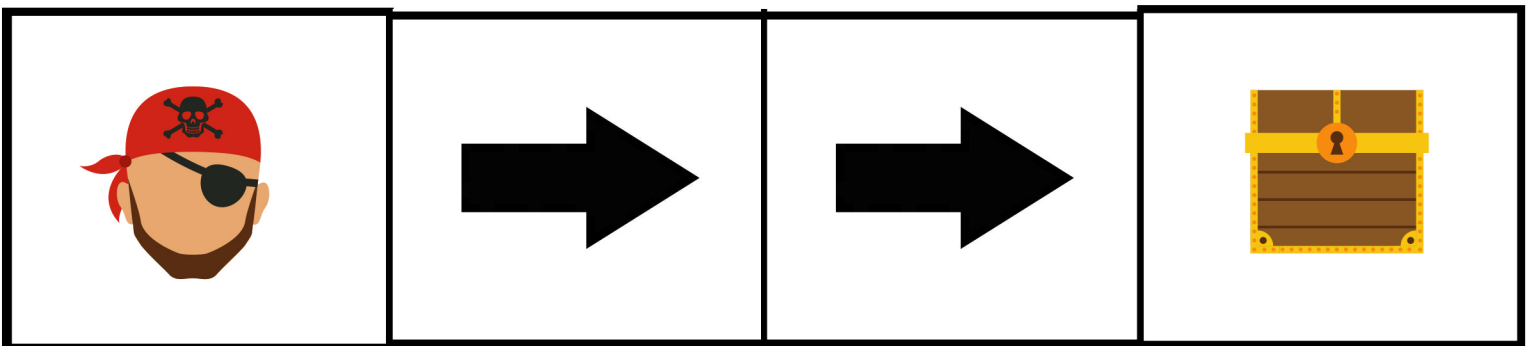

Step 2:

Have your child place the pirate and treasure chest on the game board. For more advanced players, place the bomb obstacles in the pirate's way.

Step 3:

Your child will use the arrows to write a program for you (the pirate) to follow by placing one directional arrow card for each space he wants you to move.

For example:

Step 4:

When the child's program is ready, move your pirate according to your child's instructions. If they made a mistake, encourage them to find another solution.
